

Captain Scott Ericson Promoted

Senior Captain, Scott Ericson, has just been promoted to Vice President of CEO Expeditions. Once part of the "Deadliest Catch" crew in Alaska, his credentials are extraordinary. Scott and his crew have received rave reviews from guests for the past two years, and he always knows where the big ones are!

Destination: San Juan Islands The Jewel of the Northwest

Sample Itinerary...

One hundred years ago my family homesteaded Turtleback Mountain on Orcas Island. Ever since, the San Juan Islands have been a magical place for our family. In the lee of the Olympic Mountains, with a dryer climate, their beauty and charm is unmatched anywhere in the US. It's no wonder nearly every major travel magazine has rated these among the Top 10 island chains in the world. Now you can visit them in five-star luxury with CEO Expeditions. Go to our website www.ceoexpeditions.com for more information on these amazing islands, a sample itinerary, and hard to refuse specials.

Welcome Back Bill Correll

For ten years, Bill Correll has been instrumental in our award winning growth. 18 months ago, he had a stroke, then throat cancer, which required extensive surgery. But, he won his battle and is back, ready to help you this season. **During his absence, our old friend Bev Parsons of Interpac assisted us...thanks Bev.**

"The ship [Kayana] was wonderful. What a sweet spirit she has. Thank you, thank you, thank You.
